

Sarv SMS Solution

Connect With Your Audience In An Instant

What Is Sarv Bulk SMS Solution?

Bulk SMS services are best way to help you communicate, interact and transact with your target audience. Automate web-based platform helps you avoid the need of any installation and download. Use our API facilities to use sms service more efficiently.

The screenshot displays the Sarv.com dashboard with a navigation bar containing links to Dashboard, SMS Template, Short URL, Credits, Sender ID, and a user profile for 'Hi joy'. The main section is titled 'Create SMS Campaign' and is divided into two primary panels. The left panel, 'Select Route', includes radio buttons for OTP, Transactional, Promotional, and Enterprise, a 'From: Sender ID' label, a 'Sender ID*' input field, and a 'Flash SMS' checkbox. The right panel, 'Contact Numbers', features an 'Add Contact List' button and a large text area. Below these panels, the 'Text Message' section contains a 'Dynamic Field Tags' button, a 'Short URL Tags' button, a 'Language' dropdown set to 'English', a 'Template' dropdown set to 'Select One', and a 'Message' input field.
